Romulus Flyers Parent Handbook

I. Romulus Athletic Club - PURPOSE

To promote citizenship, sportsmanship, fellowship, and physical development among the youth of the city of Romulus. To sponsor and promote organized sports events for these children. This includes football teams eligible to play in the Downriver Junior Football League, or any similar football league, which may be formed. Players to be selected on a first come first serve basis with preference to the previous years' participants who will be given the option of pre-registration. To purchase and own athletic equipment and facilities necessary to the sponsorship of this sport.

To promote the physical, mental and moral development and well being of youth, without regard to race, creed, color, or religion by providing the means through which the individual shall receive education and instruction in sports programs: and the purpose of setting up such a program will be to develop a sense of fair play, honesty, fair competition and true sportsmanship: Further that the protection of the emotional health and welfare shall be attained by emphasis upon equal competitive standard scientifically determined, rather than upon the winning of games or any other adult competitive standard.

To assist members with publicity in fund raising promotions, upon their request; to establish uniform playing rules for all members; to schedule participation of members on a equitable basis; to promote the growth of this type of activity amongst more and more youth of the community.

II. Downriver Junior Football League Philosophy

The Downriver Junior Football League Purpose is to provide a healthy typically American, body contact sport for the average youth.

Starting with the premise that youth will play football anyway, anyhow and anywhere, the league directs this activity to proper playing fields provides the best protective equipment and competent instruction.

The league recognizes as valid the usual criticism leveled at programs of this type, that being that the good done by the program as a whole can be outweighed by the harm derived from undue mental pressures placed upon players of this age by the need to win. The program places emphasis on the good sportsmanship, teamwork and team discipline by players, coaches, and all representatives of the franchise, which is to say perhaps that winning at any cost is what is de-emphasized.

Therefore, the weight limitations are designed to tailor the program for the average youth of 8-13, the youth who, in most cases, will not otherwise have an opportunity during their school career to participate in contact sports. Combined with the age limitations that provide for three different teams within a unit, there are achieved equal competitive standards during game participation.

The players play a good hard game, and half lose each time, as it must be. The Downriver Junior Football League wants the half that loses to be proud of the game they played and the way they played, too. With that purpose accomplished, the League can be proud of its program.

READY TO PLAY!!

Romulus Flyers Parent Handbook

NOTE: All pads inside the pants are held in place by the pant itself, therefore they need to be VERY snug. It should not be unusual for parents to have to lift the player off the floor by the pant waist and shake him into his pants!

If you have any questions or need help, please do not hesitate to ask a member of the coaching staff.

IX. Helmet Information

A. Helmets must fit properly

1. The helmets provided to our football players meet or exceed the safety requirements for our level of competition.
2. To assure that each player benefits from the safety features of these helmets we must insist that the following guidelines be observed:
3. Only a coach can adjust the air in the helmet “bladder”. Special lubricants, needles and pumps are required.
4. Jaw pads must touch the players face to be effective and properly fit the helmet to the player.
5. Properly fit, the player will need to develop an ability to spread the bottom of the helmet to get it over his ears and off his head.
6. First year players often find removal of a properly fit helmet to be difficult. Rather than provide smaller pads and reduce effectiveness of the helmet, we suggest the player apply some lotion to the pads and his ears to make removal of a properly fitted helmet easier.
7. Chinstraps need to fit the cup portion of the strap to the player’s chin. If the strap is “tight rope” tight and still does not “cup” the chin, see an assistant coach immediately.
8. Facemasks are all coated. The coating can be scraped off or knocked off during normal use. It is a rule violation for there to be any exposed metal on the facemask during a game. If you notice any exposed metal see an assistant coach immediately.
9. Helmets may be cleaned using soft rags and mild liquid detergents. However, there is a lot to be said for a scuffed up helmet.
10. If your child uses a helmet provided by you, the certification of the helmet is your responsibility. The equipment manager will check the certification of your helmet if it is not current your child will not be allowed to participate with that helmet.
